M.Sc.Eng. in Mechatronics and Robotics Engineering

Education

2010–2015 **B.S. in Mechatronics**, *Mechanical and Electrical Faculty at Al-Baath University*, Homs, *82%*.
Bachelor's Degree in Mechatronics Engineering, Graduation project: 3D-reconstruction from images

2016–2019 **M.S. in Mechatronics**, *Tishreen University , Mechatronics Department*, Lattakia, *83%*.
First year courses: Programming Logic Control (Siemens PLC) , Machine Vision, Optimal control, Electrical Drives, and others.

Master thesis

title *3D reconstruction from 2D images using EKF-SLAM*

supervisors Prof. Iyad Hatem

description In this research, an effort is made to make use of the covariance information given by the Visual SLAM method (Simultaneous Localization and Mapping using Visual Sensors). The goal of this effort is to get better accuracy in 3D-Reconstruction of models from 2D images, with better convergence towards the solution.

Experience

Vocational

2017–2019 **Lecturer in Mechatronics Lab in Al-Baath University**, *Mechanical and Electrical Faculty at Al-Baath University*, Homs.
Teaching Lab courses in:
- Computer networks
- Image processing
- Artificial Intelligence
- Industrial Automation

2015–2016 **Private Tutor for Programming**, *Freelancing*, Homs.
Teaching Matlab, Python, C++ for beginners
